Career Objective

I'm a driven software developer with a strong foundation in Spring and Spring Boot, passionate about crafting robust, scalable backend solutions. I thrive on building efficient applications that solve real-world problems and am excited to join a dynamic team where I can leverage my skills, dive into new technologies, and grow as a developer. I'm committed to collaborating closely with others to deliver impactful solutions that support company goals and make a difference.

Education

Jaya Engineering College, Chennai
Bachelor of Engineering   *Nov 2021 – Present*
CGPA: 8.2
Department of Computer Science

Don Bosco Matriculation and Higher Secondary School, Chennai
12th Standard, Computer Science   *Jun 2020 – Jun 2021*
Overall Percentage: 74.10

CSI Bain Matriculation and Higher Secondary School, Chennai
10th Standard, Science   *Jun 2018 – May 2019*
Overall Percentage: 60.00

Technical Strengths

Programming Languages: Python, Java

Back-end: Spring,Spring Boot

Database: MySQL

Others: Git

Projects

Privacy Scoring Application: Designed and developed a privacy scoring application to assess and visualize data privacy levels, incorporating secure data handling, API integration, and efficient state management for a seamless user experience.

Disney+ Hotstar Clone using React: Developed a responsive web application mimicking the user interface and functionality of Disney+ Hotstar. Utilized React.js for dynamic rendering and API integration to fetch and display movie information.

Responsive Portfolio: Created a personal portfolio website using HTML5, CSS, and React.js, showcasing projects, skills, and experiences with a modern and responsive design.

Work Experience

KnackForge, Chennai
Intern   *July 2024 - September 2024*
○ Developed a Weather Application using React.js.
○ Collaborated with cross-functional teams to design and implement new features.
○ Debugged and resolved software issues to improve application performance and user experience.

Yubi, Chennai

Intern   *March 2025 - Present*
○ Worked on optimizing solutions for analyzing bank statements, significantly improving result accuracy and efficiency.
○ Contributed to the Human-in-the-Loop (HITL) process, enhancing system performance through effective feedback integration.
○ Collaborated with cross-functional teams, gaining insights into organizational culture and fostering strong teamwork skills.

Academic Achievements

IT Fest Participation: Actively participated in various IT fests, achieving recognition for innovative solutions in coding challenges.

Open Source Contributions: Earned bounties for contributions to projects on Aptos Labs, collaborating with The Phoenix Guild.

Personal Traits

Effective communicator and good orator.: Growth-oriented and performance-focused.

Collaborative and proactive.: Decisive and calm under pressure.
